Dear Sir,

Sub:- Invitation to act as a member of Board of studies (BOS) of the course, "Basic Computer operation" of Dhupguri Girls' College.

Ours is a college located in the remote corners of Dooars, comprising of mainly, first generation learners. In order to facilitate a rudimentary knowledge of computer operation amongst the girl students, the college has designed a certificate Course on "Basic Computer operation".

We will be happy, if you kindly accept our invitation to be a member of the BOS of the course, "Basic Computer operation" and go through the syllabus of the course (enclosed herewith). We are looking forward to your invaluable comments and suggestions on the course. Kindly accept our invitation as member of the BOS and write few words on your letterhead regarding the syllabus of the course. Sir,

On the outset let me thank you for giving the opportunity to act as a member of the Board of Studies of the course on Basic Computer Operations at your college. I think it is a great initiative and I hope this will go a long way in imparting employable skills among the students.

I found the course content apt and well thought out for first generation learners. As suggested in your letter, I would like to share my thoughts on the course content.

- 1) The emphasis on developing basic skills of Word and Excel is very well placed.
- 2) I am less enthusiastic about the prospect of learning MS paint. Presently, most students are familiar with smart phones where apps often do a similar or better job. MS paint also has limited employability linked benefit in my personal opinion.
- 3) I also think weight given on Powerpoint can be reduced. Although it is a useful tool, most young executives get few opportunities for presentations. I think the time can be better spent elsewhere.
- 4) I would recommend course includes cloud computing. Google drive would be a good tool. Google form is already in the syllabus, but the scope here needs to be widened.
- 5) Most smart phone users know about internet and websites. But their understanding of the background is weak. I recommend giving basic ideas about how websites work. Basic protocols, Hosting of sites, DNS, WYSIWYG site builders, basics of SEO, basics of website designing etc. I understand this may be a bit overwhelming to the candidates so it can be done towards the end of the course so that anyone with right inclination are equipped to pursue further study on these very practical and potential areas.

5.1.2: Report with photographs on Programmes /activities conducted to enhance Awareness of trends in technology / ICT/computing skills

Program Report: 5-day Capacity Building Programme on QGIS

The 5-day Capacity Building Programme on QGIS was organized in collaboration with Birpara College and IIARI, Kolkata. The workshop aimed to provide participants with basic knowledge and skills in using QGIS, a popular open-source Geographic Information System (GIS) software. The program was conducted from **10th April to 14th April, 2023**, at Dhupguri Girls' College.

• Participants:

A total of 113 participants from various educational institutions attended the workshop. These participants included students, faculty members, and professionals interested in GIS and spatial analysis. The program received an overwhelming response, indicating the growing interest in geospatial technologies.

• Workshop Sessions:

The workshop primarily focused on imparting basic knowledge and practical skills in using QGIS software. The sessions covered the following topics:

1. Introduction to GIS and QGIS
2. Data acquisition and management
3. Spatial analysis techniques
4. Cartography and map production
5. Remote sensing integration with QGIS
6. Advanced plugins and tools in QGIS

The sessions were conducted by expert trainers from IIARI, Kolkata, who provided hands-on training and guided the participants through various exercises and practical examples.

• Offline Participation:

The workshop witnessed active participation from six colleges in offline mode. The colleges actively engaged their students and faculty members to make the program a success. The offline mode allowed participants to interact with the trainers and fellow participants, fostering an environment conducive to learning and knowledge exchange.

• Inaugural Ceremony:

• Inaugural Ceremony (10th April 2023):

The workshop commenced with a grand inaugural ceremony held in Room No. 5. The ceremony began with a gathering and the lighting of the lamp, followed by a soulful opening song performed by students. The guests were felicitated during the ceremony. The conveners, Dr. Debarshi Ghosh (HOD, Dept. of Geography, DGC) and Mr. Pranoy Dey (HOD, Dept. of Geography, Birpara College), delivered the welcome address. A mesmerizing dance performance by Sharmistha Modak, a 6th semester student of Geography, added color to the event. The inaugural addresses were delivered by Dr. Debnath (Principal, Dhupguri Girls' College), Dr. Jyotirmoy Roy (TIC, Birpara College), Professor Subir Sarkar (Ex-HOD, Senior Professor, Dept. of Geography & Applied Geography, NBU), Anil Chakraborty (Governing Body President, DGC), and Rajesh Kumar Singh (Vice-Chairman, Dhupguri Municipality). The ceremony also included addresses by other esteemed guests and dignitaries, such as Professor Deepak Kumar Mandal (HOD, Dept. of Geography & Applied Geography, NBU), Dr. Nilangshu Sekhar Das (Principal, Sukanta Mahavidyalaya), Professor Piyal Basu Roy (Dept. of Geography, Coochbehar Panchanan Barma University), Dr. A. Basak (Associate Professor, Dept. of Geography & Applied Geography, NBU), and Dr. B.C. Sarkar (Associate Professor, AC College). The inaugural ceremony concluded with a vote of thanks by Mr. Abdul Momin Hoque (Assistant Professor, Dept. of Geography, DGC), the organizing secretary, followed by the National Anthem.

• Closing Ceremony:

The workshop concluded on 14th April, 2023, with a colorful cultural event during the closing ceremony. Participants showcased their learning outcomes and skills acquired during the program through various presentations, posters, and map displays. The cultural event featured vibrant performances, including music, dance, and drama, celebrating the diverse talents of the participants and creating a joyful atmosphere.

About Dhupguri Girls' College

Dhupguri Girls' College was established with a vision to foster and cultivate the zeal for learning and education amongst the underprivileged women, especially in this region of Dooars, North Bengal. Developmental programs and governance of a postcolonial state has started to make inroads in this region only in the recent past, and since then a lot of thinking has gone into inducting women in various walks of life that alone can make them stakeholders in an inclusive framework of human growth and development. Since its inception in 2013, this institution has nurtured aspirations for higher education in these remote corners of the rural hinterland, amidst lots of challenges and impediments. We, at Dhupguri Girls' College believe that the pursuit of higher education in the holistic sense of the term can provide an avenue to these women to empower themselves in the contemporary times. Towards this end, the College aims to provide various academic resources to the students in the form of study materials and various audio-visual learning tools, to bring about a positive change in the rural community and strengthen the networks of knowledge transmission and production thereby opening up the avenues for employment opportunities. This vision has continued to grow in the last few years through an optimum utilization of its limited resources and funds of the college. The strength of the institution lies in its potential to cultivate its human resources and instil independent and bold thinking amongst its pupils in a liberal academic environment.

About IIARI

IIARI is a research organisation based in Kolkata. It focuses on integrated studies, program implementation, industry and market research. It mainly covers three domains which include academic development, industrial services and consultancy work. Application of various software, system of geographic information and illustration of different skill development programs are the key, which provides hands-on training and projects that will help you to explore your motto of the academic counterpart. Innumerable short-term courses are offered here interests and sharpen your skills to procure a competitive edge in the workspace. IIARI aims to inculcate knowledge and skills among the budding geographers to make them competent enough to fight in the prospective world of GIS as well as to procure a place in this emerging space.

Scope

This COURSE will appeal to those who require an understanding of research approaches. Most importantly, it will help to enhance the ability to utilize the knowledge/skill in their studies or in professional lives. And also, it will be very helpful to those who are pursuing Under-graduate and Post-graduate courses. The eminent geographers of the world are of the opinion that in near future the Geo-spatial technology will play a pivotal role in the field of research and will help the society at large to frame its policies. This COURSE will also help the students immensely, as we focus on their specific courses of both UG & PG. Further, the COURSE aims to sharpen the logical mind of students for their upcoming Professional lives. Moreover, this endeavour will make it possible to offer such an expensive course in a pocket friendly manner to the rural folks of North Bengal.

Future Prospects

The student participants can choose the Geoinformatics/GIS based career as an alternative path after completing their studies as the domain promises lots of opportunities in future. The Public sectors such as central governments, state governments and innumerable statutory bodies, are directly recruiting the GIS professionals. Apart from them, the huge private sectors are in a hunting mode throughout the year so that they can make up their shortage of manpower. GSI, SOI, NATMO, DST are some of the examples in public domain whereas ESRI, HEXAGON, WRI are one of the leading recruiting MNCs in Geoinformatics/GIS. We are here to assist you in getting a foothold in this domain.

Report on the GIS Capacity Building Certificate Course

• Introduction

The Geospatial Approach course offered by Dhupguri Girls' College in collaboration with the Integrated Institute for Advanced Research and Information (IIARI) was a one-month capacity building certificate course aimed at providing participants with advanced knowledge and skills in Geographic Information System (GIS). The course was conducted online via Zoom and covered a wide range of topics related to GIS, remote sensing, and their applications. The course started from 04-05-2023 and ended on 09-06-2023. This report aims to provide an overview of the course and its impact on the participants.

• Course Structure

The course was structured into four weeks, with each week focusing on specific topics related to GIS and its applications. The topics covered in each week were as follows:

• First Week

Overview of GIS - RS & Its Application

Accuracy Assessment

Concept of DEM (Digital Elevation Model)

Satellite & DEM Data Download

Spatial Analysis: DEM, Slope, Aspect, Contour, Hillshade

• Second Week

Image Enhancement

Image Rectification

Image Merge

Stacking
