About Dhupguri Girls' College
Dhupguri Girls' College was established with a vision to foster and cultivate the zeal for learning and education amongst the underprivileged women, especially in this region of Coocars, North Bengal. Developmental programs and governance of a postcolonial state has started to make inroads in this region only in the recent past, and since then a lot of thinking has gone into inducting women in various walks of life that alone can make them stakeholders in an inclusive framework of human growth and development. Since its inception in 2013, this institution has nurtured aspirants for higher education in these remote corners of the rural hinterland amidst lots of challenges and impediments. We, at Dhupguri Girls' College believe that the pursuit of higher education in the holistic sense of the term can provide an avenue to these women to empower themselves in the contemporary times. Towards this end, the College aims to provide various academic resources to the students in the form of study materials and various audio-visual learning tools, to bring about a positive change in the rural community and strengthen the networks of knowledge transmission and production thereby opening up the avenues for employment opportunities. The enhanced level of awareness through their intellectual pursuits, we believe, will pave the way for innovative practices of thinking and ideas to come. This vision of the college has continued to grow in the last few years through an optimum utilization of its limited resources and funds. The strength of the institution lies in its potential to cultivate its human resources and instill independent and bold thinking amongst its pupils in a liberal academic environment.

About Birpara College
Birpara College was established as a commerce college offering B.Com. (General) with English and Bengali as language subjects in 1966. Following increase in student enrollment and acknowledging their demand, the University of North Bengal (NBU) approved Accountancy (Honours) in 2006. By then, the college was also offering courses in Humanities. In 1995, NBU had given the college sanction for starting B.A. (General) courses with Economics, Sociology and Geography as the elective subjects. The introduction of the humanities resulted in manifold increase in the number of students and since then the college has got approval for seven Honours subjects—namely, Geography (2001), Bengali (2003), Sociology (2005), History and Nepali (both in 2009), English (2017) and Political Science (2020)—and six elective subjects: History (2003), Nepali (2005), Political Science (2009), Education and Hindi (both in 2012), and Physical Education (2017). The college also offers Computer Science, Mathematics and Physics as the subjects was introduced as a self-financed course in 2017. The college also will feel the need for introducing certain job-oriented courses as well as some other popular subjects for the benefit of the students.

Scope of Workshop
This workshop will appeal to those who require an understanding of research approaches. Most importantly, it will help to enhance the ability to utilize the knowledge/skill in their studies or in professional lives. And also, it will be very helpful to those who are pursuing Under-graduate and Post-graduate courses. The eminent geographers of the world are of the opinion that in near future the Geo-spatial technology will play a pivotal role in the field of research and will help the society at large to frame its policies. This workshop will also help the students immensely, as we focus on their specific courses of both UG & PG. Further, the workshop aims to sharpen the logical mind of students for their upcoming Professional lives. Moreover, this endeavour will make it possible to offer such an expensive course in a pocket friendly manner to the rural folks of North Bengal.

Future Prospects
The student participants can choose the Geoinformatics/GIS based career as an alternative path after completing their studies as the domain promises lots of opportunities in future. The Public sectors

such as central government , state government and innumerable statutory bodies, are directly recruiting the GIS professionals. Apart from them, the huge private sectors are in a hunting mode throughout the year so that they can make up their shortage of manpower. GSI,SOI,NATMO,DST are some of the examples in public domain whereas ESRI, HEXAGON, WRI are one of the leading recruiting MNCs in Geoinformatics/GIS. We are here to assist you in getting a foothold in this domain.

- Identification of potential health issues: Many students and villagers received insights into their health status through the check-ups, allowing for early detection and prevention of diseases.
- Thalassemia awareness: By offering free thalassemia testing, awareness about this genetic disorder was raised among the attendees, promoting informed decisions regarding family planning and genetic counseling.
- Community engagement: The event fostered community participation and engagement, especially with the villagers from College Para, strengthening the bond between the college and the adopted village.

The medical check-up camp and free thalassemia testing program organized by the NSS Unit at Dhupguri Girls' College served as a commendable initiative towards promoting healthcare awareness and providing essential services to the students and surrounding community members. Such events contribute significantly to the overall well-being and health awareness of the society, and efforts to organize more such initiatives are encouraged for the future.

Report on Swachhata Abhiyan at College Para, Dhupguri

On May 17, 2024,

Dhupguri Girls' College, in collaboration with the NSS Unit and Icchedana NGO, conducted a Swachhata Abhiyan in our adopted village of College Para, Dhupguri. The primary objective of this mission was to eradicate the widespread presence of Parthenium, a harmful weed, and to raise awareness among the villagers about its detrimental effects.

A team of dedicated volunteers and students participated in the drive, covering a broad area infested with Parthenium. The weed's removal was essential due to its severe impact on human health and the environment. Parthenium can cause respiratory issues, skin allergies, and negatively affect agricultural productivity.

The volunteers engaged with the villagers, explaining the health risks associated with Parthenium and the importance of maintaining a clean and healthy environment. Informative sessions were conducted to educate the community about effective ways to control and prevent the growth of this invasive species.

The Swachhata Abhiyan was a resounding success, with significant areas cleared of Parthenium and increased awareness among the villagers. This initiative highlighted the power of community participation in fostering a healthier and cleaner environment, reinforcing the importance of collective action in tackling environmental issues.
