Report on Swachhata Abhiyan at College Para, Dhupguri

On May 17, 2024,

Dhupguri Girls' College, in collaboration with the NSS Unit and Icchedana NGO, conducted a Swachhata Abhiyan in our adopted village of College Para, Dhupguri. The primary objective of this mission was to eradicate the widespread presence of Parthenium, a harmful weed, and to raise awareness among the villagers about its detrimental effects.

A team of dedicated volunteers and students participated in the drive, covering a broad area infested with Parthenium. The weed's removal was essential due to its severe impact on human health and the environment. Parthenium can cause respiratory issues, skin allergies, and negatively affect agricultural productivity.

The volunteers engaged with the villagers, explaining the health risks associated with Parthenium and the importance of maintaining a clean and healthy environment. Informative sessions were conducted to educate the community about effective ways to control and prevent the growth of this invasive species.

The Swachhata Abhiyan was a resounding success, with significant areas cleared of Parthenium and increased awareness among the villagers. This initiative highlighted the power of community participation in fostering a healthier and cleaner environment, reinforcing the importance of collective action in tackling environmental issues.
